

Navigation: Cardinal cones (card 15)

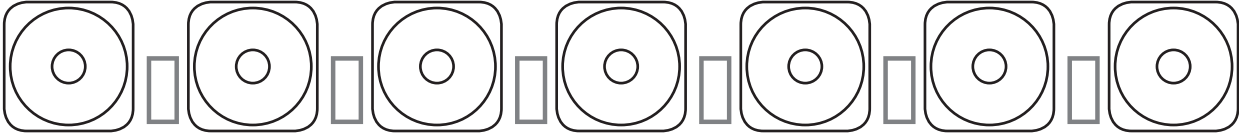

Preparation

1. Print and cut up the six route cards on reverse.
2. You will need six different route cards for each pair.
3. Laminate the route cards if possible.
4. Set out nine cones in a grid, each marked with a different letter.
5. Make a master card for each route, noting the correct order of the letters. (You can do this as the children are working.) Or ask them to check the answers with another pair at the end.
6. Continue with the guidance on the resource card.

Use the cards below to modify the compass points or routes.
